PROFESSIONAL EXPERIENCE

Resume Worded, New York, NY

Jun 2018 – Present

JavaScript Developer

- Performed on code reviews and bug fixes, reducing technical debt by 30% within the first quarter.
- Mentored 5 junior front end developers on JavaScript and Redux and trained on the documentation practices used within the organization. Highly involved in the entire product development process from ideation to development and improvement for features, reaching over 250,000 users.
- Relocated a multi-page user experience into a single page application, improving customer engagement by 12%.
- Designed multiple dynamic and browser compatible pages using HTML5, CSS3, Javascript (React, Redux).
- Collaborated with UX/UI design teams to improve checkout flow; increased conversion rates by 20%.
- Analyzed impact and effectiveness of in-app UI changes on customer retention; identified features of customer behavior and recommended additional menu modifications [R, MySQL, Chart JS]

Growthsi, New York, NY

Jan 2015 – May 2018

Front End Developer

- Worked alongside three peers to build a real time voice visualization website based on JavaScript within 36 hours.
- Built a web application MPV for a dropship management platform with 75+ business customers to create, manage and monitor deliveries.
- Updated a cooking application with 6000+ monthly active users to allow the uploading of audio and video content using Redux.

Resume Worded, San Diego, CA

May 2010 – Dec 2014

Software Engineer (Nov 2011 – Dec 2014)

- Developed RESTful APIs used within the company to serve data based on dynamically chosen user inputs for a web application with over 275,000 concurrent users.
- Built unit testing infrastructure for a client application resulting in reduced number of user-reported bugs by 10% every month.

Junior Software Engineer (May 2010 – Oct 2011)

- Developed an internal tool to automate QA and monitor customer facing web applications, resulting in an improved click through rate by 7%.
- Worked alongside 2 developers to implement APIs which helped the internal analytics team to increase the reporting speed by 24%.
